

Lionhead Litter Evaluation:

DOB: _____

1st Eval: _____ 2nd Eval: _____ 3rd Eval: _____ 4th Eval: _____

Sire: _____ Dam: _____

Date: _____ Date: _____ Date: _____ Date: _____

Color: _____ Color: _____

Never changes: Chest depth, ear shape/placement, Pinched HQ, pins, head mount/width, shoulders.
 May change: Ear thickness, head, overall balance/width/fullness.
 Note: I want about a quarter sized clear spot on the saddle at 8 weeks. Breeding bucks tend to lose their manes earlier. Ears stop growth a 8-12wks. Shoulders lengthen as they age.
